

Improved choice for Huyton

As customers continue to look for better-value brands to help make their money go further, it is important that residents have access to a wide range of shopping facilities. The introduction of a new Aldi food store in Huyton would improve the immediate local retail offering, creating more competition and improving choice for the local community.

Aldi is well known for selling a variety of high-quality products at discounted prices. Our customers save between 30% and 40% on their shopping without compromising on quality, with everyday items available at low prices. A store in this location would allow nearby residents to carry out their food shopping without the use of a car.

Local Jobs

The new Aldi food store would create approximately 40 new jobs, including managerial positions. Aldi aims to provide flexible jobs for local people, and more employment opportunities would also be available through the construction of the development.

Aldi employees receive industry-leading wages above the National Living Wage, proven opportunities for career progression, high levels of training, and a guaranteed minimum of 20 hours' work per week.

It is Aldi's aim to recruit staff locally for its new stores and, as a result, most staff live close to the store where they work.
