

# Welcome to our virtual exhibition

CGI of the proposed store

## **Aldi, the award-winning discount food retailer, is preparing plans to open a new, high-quality food store on land off the A59 Northway in Maghull (former Motor Range site).**

Aldi have received a number of requests from the residents of Maghull to open a store here and after several years of searching we have finally found a suitable location. The proposed store will provide the local community with award-winning low-priced food, as well as offering more customer choice for food shopping and reduced travel times.

The application will also include outline proposals for a drive-thru coffee shop and restaurant. The outline portion of the application will establish the principle of this kind of development at the site, and further details would be provided by the landowner at a later date via a "Reserved Matters" application.

The overall scheme will create around 75 new jobs for local people, with additional employment opportunities via construction and the supply chain.

Aldi will submit its planning application to Sefton Council in June 2020. We look forward to hearing your thoughts and feedback on our proposals.
