- Unique timber 'tuning fork' design posts
- 125mm boards featuring an interlocking "vee" tongue and groove
- Fence is finished with a capping and counter rail
- Vee T&G profile has been carefully developed to locate the boards in such a way that eliminates gaps that sound will easily travel through, even when boards shrink and expand with changes in the weather.
- All timber used is Jakure pressure treated and covered by 25-year guarantee.

Giving lasting protection above and below ground against all wood-boring pests and all forms of wet and dry rot.
